3	Bodies of Others
3	Choosing Eunuch
3	<p>Cresting</p> <p>I find that when I am cresting, (desires and fantasies, ) sexual things begin to activate.  I become more aware of Fascinators.  I have more of a (the) desire to sex.  Morning erections may be stronger.</p> <p>I imagine, for one who does not sex, that the body absorbs the semen and Sperm.  For me, I enjoy the cresting as it is preparing me for the next time of Insertion Sex.</p>
3	Distortions
3	<p>Eden Break</p> <p>At times, when I am ready for a break, I want to sex.  This is when I allow myself to take an Eden Break.  Taking an Eden Break, I (would) undress, get n\Naked.  I lie in our marriage bed, exposed, or covered with a sheet if it's cool.  I allow, note, realize that I am naked before my Father, as our ancestors were in Eden.  There they were naked and unashamed.  I admit that I want to sex.  I find in prayer that I may Auto-E\erect, my Mantor will become aroused, hard.  Sometimes (I) my Mantor gets very hard.  I may touch my gens—lift my gens, hold my balls, loosely rub my hard Mantor.  I do not, as in the past, begin to fist or solo sex.  I am finding, as it seems I am becoming healthier in sex, that I do not want to solo sex.  I am enjoying the pleasure of pressure Vs “handiwork.”  Getting hard and enjoying the pressure is different from fisting towards ejaculation.  It is a different pleasure.  There is Pressure Pleasure in the Mantor and the Spermers.  The Mantor pressure is towards Insertion Sex.  My Mantor is naturally “yearning” towards insertion, towards being “sheathed,” surrounded.  Because Insertion Sex is so much more satisfying, I allow the Pleasure of Pressure.  I allow the arousal to be preparation for the next time I have Insertion Sex.</p>

3	Man Hair

L	Perspective/Described
	<p>To call Man Hair pubic hair is only naming where it is, in the pubic area.  For a while I called it Lubricate Hair, or Lube Hairs.  Lubricant or Lube Hair (This) is a truer name because Man Hair does act as a lubricant during Insertion Sex.  However, Man Hair takes the name to different and stronger level.</p> <p>This naming came of (thinking ) my questioning the who genital area.  Why not be like a well-known male doll that has no genitals, only a smooth cover over the genitals.  Couldn't the balls be inside?  Could the Mantor be inside, beyond a small slit through which it could expand?</p> <p>I didn't think much about the "pubic hairs;" the doll had none.</p> <p>Then I realized the vulnerability of the Spermers representing God's vulnerability in allowing evil.  Allowing the Mantor to be outside the body is emblematic that God is always ready to enlarge for us.  The hairs, I realized, are indicative of maturity.  When a male has Man Hair, his body is ready to make a man, or a woman.  His Spermers are producing Sperm.  He is now, after maturing, able to ejaculate.  The Man Hairs indicate he is ready to make a man (or woman).</p>

3	Sex Symbolism
3	Sex Symbolism—Spermers <p>Spermers are outside the body as an emblem of what God Our Father did for us.            In the God-Based Understanding of Life’s Foundation (GULF), God allow evil.            God is Perfect Love.            In order to make us like Him, H\he had to allow something other than Himself to choose.            That which is other than H\him is evil (to exist) .            In essence, to allow us Choice, so that we could choose Love, He allowed His Perfection to be marred.            Allowing the Spermers to be outside of the body is emblematic of His allowing evil to exist.            He made Himself vulnerable; and so H\he makes us, men, vulnerable as He is vulnerable.            Giving us Spermers that are outside of the body, is making us more like Him.</p>
